

Confluence Copilot Integration

Enhance your Confluence Data Center with the power of AI by integrating Microsoft Copilot. This virtual assistant seamlessly connects with your existing knowledge base, allowing users to leverage Microsoft's advanced AI to streamline their workflow and boost productivity.

Our Solution Offers:

- ✓ **AI-Powered Assistance:** Equip your users with Microsoft Copilot's intelligent assistance, enabling faster task management.
- ✓ **Knowledge Base Integration:** Seamlessly integrate Copilot with your internal Confluence knowledge base, providing personalized, context-aware suggestions.
- ✓ **Customizable to Your Needs:** Tailor the Copilot experience to align with your organization's specific data, ensuring relevant and accurate assistance.

Key Benefits:

- ✓ **Easy Setup:** Quickly configure Copilot with minimal setup to start optimizing your team's Confluence experience.
- ✓ **Improved Productivity:** Boost productivity by automating repetitive tasks and offering AI-driven insights directly within Confluence.

ABOUT US

Security Experts Trusted by 25,000+ Organizations Worldwide

miniOrange stands at the forefront of Atlassian security, delivering Single Sign-On (SSO), Multi-Factor Authentication (MFA), and User Management solutions. Be it Data Center or Cloud, our apps secure Atlassian with seamless SAML and OAuth integration for ease of use and top-tier security.
