

# SSO FOR CROWD AND CONNECTED APPLICATIONS

The ONLY Crowd SSO Solution—  
Recommended by Atlassian

The miniOrange Crowd SSO connector expands the SAML or OAuth/OpenID SSO functionality from Crowd to its connected Atlassian applications. It allows users to enable SSO authentication from any SSO-compliant IDP.

## Our App Offers:

- ✓ **Auto-Creation & JIT:** Synchronize users with the Identity Provider using seamless just-in-time provisioning.
- ✓ **App-Specific SSO:** Grant only necessary permissions for connected applications, ensuring secure access control.
- ✓ **Encryption & Signing:** Protect data with advanced encryption and signing for secure SSO transactions.
- ✓ **Customized Login:** Tailor your login page design to reflect your brand's unique identity.
- ✓ **Emergency Login:** Gain access to Crowd using local credentials during unexpected system failures.
- ✓ **Redirection Rules:** Authenticate users dynamically based on their designated authentication source effortlessly.

**CONNECTORS AVAILABLE FOR:**

## CROWD SCIM

Sync Seamlessly, Manage Effortlessly:

The User & Group Sync app for Crowd Data Center ensures seamless synchronization with Identity Providers like Azure AD, Okta, and G Suite.

### Our App Offers:

- ✔ **License Optimization:** Automatically deactivate users when marked as deleted or deactivated in the Identity Provider.
- ✔ **Access Management:** Automate user/group management with create, update, and delete functions through the Identity Provider.
- ✔ **SCIM Not Required:** Provision users from non-SCIM compliant IDPs via REST API.

## ABOUT US

### Security Experts Trusted by 25,000+ Organizations Worldwide

miniOrange stands at the forefront of Atlassian security, delivering Single Sign-On (SSO), Multi-Factor Authentication (MFA), and User Management solutions. Be it Data Center or Cloud, our apps secure Atlassian with seamless SAML and OAuth integration for ease of use and top-tier security.
